### **TIPS FOR THE BOARD EXAM STUDENTS:-**

Board Exam can be an immensely stressful time for the students. The constant pressure & back to back exam leave them tired & sleep deprived. Not being able to perform well in exam or even suspecting that they could not do well or did something wrong can demotivate them. This is the high time when they understand the importance of the board exam & its effects likely to be on their future career so very often they feel overburdened & over stressed and many times they pass sleepless nights studying in a haphazard way. So, there are some tips for the board class students for their better performance.

Normally we can put the class students in three categories, viz- Bright Students, Mediocre & Slow Achievers. The following are the suggestive tips for each of the above category student to follow in order to enhance their performance:-

#### **A. FOR THE BRIGHT STUDENTS:-**

01. The students whose performance is generally of an optimum level say they score 75% or above marks. They may upgrade their performance so the following tips are given:
02. After going through NCERT Books they should study the different Reference Books & enrich their knowledge of the chapter & subject thereof.
03. Solve the previous year's Question Papers & if possible, get them checked by the subject teachers.
04. Go through current years sample paper issued by CBSE.
05. Know the CBSE Marking Scheme & the criteria of awarding the marks.
06. CBSE has also uploaded the best answer sheets of previous years students. They should see them as how those students had attempted the questions & the Examiner has awarded them outstanding marks.
07. They should also take time to teach some slow achievers that will enhance their competency & confidence level.
08. They should prepare a study time table based on their command over a particular subject & adhere to this schedule.
09. They should take plenty of sleep & healthy & nutritious diet, avoiding the junk food, taking sufficient quantity of liquid.
10. They should Google new information in each subject to hone their skill & competency.
11. They should ask questions, & review new information, learned.
12. They should challenge themselves to do extra questions.
13. They should reverse engineer the solved problems- Take solved problem & work backwards.
14. They should think critically.
15. They should also try to solve the question papers of JEE or NEET etc.

#### **B. FOR THE MEDIOCRE STUDENTS:-**

The students securing average marks or marks of medium level can be termed as mediocre.

01. They should focus on NCERT text Books first & understand them intimately & where ever they find difficulties they should get them removed or resolved.
02. Frame the appropriate study time table & strictly follow it.

03. They should be in touch with the bright students to uplift their level of learning.
04. They should solve previous years sample question papers & CBSE recent question papers.
05. They should know the methods of attempting questions, & they should also see the bright students' pre-board & half yearly exam answer sheets.
06. They should rehearse & remember.
07. They should be tortoise to win the race.
08. They should harness their wandering minds.
09. They should tangle with the confusion.
10. They should strive to build competence & gain confidence.
11. They should concentrate mind on the particular topic
12. They should improve their writing speed & manage the time.

### **C FOR THE SLOW ACHIEVERS:-**

The students who does not achieve to a low extent the required objectives at the end of lesson is termed as slow achiever. For such student's Remedial plan should be designed to learn the required knowledge & skill to achieve the established objectives.

**These objectives should be:- SMART**

**S- SPECIFIC**

**M- MEASURABLE**

**A- ACCEPTABLE**

**R- REALISTIC**

**T- TIMED.**

**Such students should know the adage:**

**“I LISTEN I FORGET, I SEE I REMEMBER: I DO I UNDERSTAND.”**

Main point is that they should do plenty of exercises. The minimum learning objectives should also be framed for them.

The following are some of the tips to be opted by them:-

1. The first & foremost thing is that they should be properly motivated & guided & encouraged that they can make it done.
2. They should get command over at least easy chapters & identify their weak area.
3. More emphasis should be given on writing drill.
4. They should be in touch with the bright students & discuss their difficulties in order to resolve their problems.
5. They should improve the writing speed.
6. They should identify the important chapters & try to prepare them first.
7. They should frame a suitable time schedule & strictly follow the study hours thereof.
8. They can even cram the important answers & summary of the chapters concerned.
9. They should go through the Reference books but should not study many Reference books at a time.
10. They should regularly take assistance from teachers & be under their monitoring & supervision.
11. They should avoid poor learning strategies & study habits.
12. To plan the step by step study of each subject.
13. Try to diagnose the difficulties & get them removed by all possible means & resources.
14. They should analyze their common & recurring, frequent mistakes.
15. They should go through repetition & repletion & repletion.
16. They should schedule their daily reading.
17. They should test themselves frequently. Even the teacher should also take chapter wise, question wise, difficulty level wise or lesson wise test & review their performance after pointing out their errors.

18. They should come forward to ask questions. They should be encouraged to pose question where ever they feel difficulty.
19. They should break big task into smaller ones.
20. Don't multitask or over load.
21. They should follow the principle of learning by doing.
22. They should focus more on text book rather on extra books.
23. Don't try to mug up each & everything.
24. Try to achieve minimum learning outcomes.

### **TIPS FOR ALL THREE CATEGORIES STUDENTS:-**

01. Get rid of the distractions.
02. Create conducive study environment.
03. Do consistent work.
04. Manage your thoughts, emotions & time.
05. Be organized.
06. Skillfully manage your time based on the need of particular subject.
07. Develop good posture.
08. Learn by doing.
09. Study at short bursts not long marathons.
10. Get plenty of sleep & rest.
11. Take regular break, eat something in between study & relax for some time.
12. Keep body & brain fueled, taking nutritious food.
13. Plan for the exam day.
14. Be confident, relaxed & healthy.
15. Rehearse & remember regularly.
16. Ask questions, seek answer.
17. Condense your revision notes in one page or make brief notes for pre exam day.
18. Believe you can learn, you can do.
19. Don't leave until the last moment.
20. Remove exam fear & stress.
21. Know the Question paper pattern & Marking brief notes for pre exam day.

### **MAKE YOUR SWOT ANALYSES:-**

**S- STENGTH**

**W- WEAKNESS**

**O- OPPORTUNITY**

**T- THREAT.**

After SWOT analyses know your weakness & the opportunities available within you & try to combat the fear of exam. Sure you will win, you will get through.
